OBJECTIVE

To obtain a creative and challenging position in an organization that gives me an opportunity for self-improvement and leadership, while contributing to the symbolic growth of the organization with my technical, innovative and logical skills.

EXPERIENCE

Medichain

Medichain is a blockchain based decentralised application that is used to store and manage the confidential details of the patients of a hospitals. Here the patients have an id and doctors are given permission to write to store using their private key. The project is being done in Hyperledger Sawtooth. Currently the same project is being developing on top of the Ethereum.

INTERNSHIP

Completed 2 months of internship in python from Quest Innovative solutions Kadavanthara.

STUDENT PATROL SYSTEM• PROJECT

It's a project with web and an android application developed by me and my team members . It is a interface system between the police and the students where the p students can interact with police about their problems, and complaints and the effective way of solving it.

EDUCATION

Certified Blockchain Developer(Sawtooth, Ethereum)

Currently persuing Certified Hyperledger & Ethereum Developer program at Kerala BlockChain Academy, Thiruvananthapuram. Working on building decentralised application on top of Hyperledger Sawtooth, Ethereum.
